This quiz has been designed to evaluate your Mating Rating – that is, where people of the opposite sex (or those who have the opposite brain wiring to you) see you on the Desirability Scale. This quiz is good for anyone who wants to improve their Mating Rating and jump up to the next level. It will help you to pinpoint your weaker areas and the areas in which you are not achieving. No matter which category you achieve in this test, if you are happy to be in that category, then that's OK. If you are not happy in a category, however, this test will guide you to the areas in which you'll need improvement. We have found that people are usually tough on themselves and we suggest

that you ask someone who knows you well to do the quiz with you to guide you towards what they think could be the most accurate response for you. This way, you will discover not only how you see yourself but how others see you. Many people will be surprised at how others see them compared to how they rate themselves.

Answer all the questions before looking at the scoring system so that you stay honest with yourself.

34-77 points

The Only Way is Up!

Girl you've got work to do and right here's where you start paying in sweat! You're at the lower end of the desirability scale, but all is not lost. Rank the areas you need to improve in and tackle each one in order. So dust off that gym membership, hit the shops and place that Cosmo subscription. You'll be surprised how quickly you can progress.

78-150 points

Average Jane

The majority of people fall into this category, so you're certainly not alone. Are you sad and reaching for the chocolate or happy but reaching for the stars. C list parties are fun, but deep down you know you're an A lister. So tone up with that personal trainer, read up at the book group and dress up in those Manolo's and soon enough you'll be Crazy in Love.

151-180 points

Yeah Baby!

Congratulations you're hot, but you knew that anyway didn't you? You're a Cannes do girl who knows her value on life's red carpet and trails a bevy of adoring admirers in her wake. Your only decision is which one you want to wake up to. Angelina's got competition, does she know just where Brad is today?
